EDUCATION

MCA (Pursuing) 2024–2026
HPU Regional Centre, Dharamshala
CGPA: 8.2 (Ongoing)

BCA (2021–2024)
Himachal Pradesh University
CGPA: 8.5

12th (2020–2021)
BKR Senior Secondary School, Dada Siba
HP BOSE | 78%

10th (2018–2019)
BKR Senior Secondary School, Dada Siba
HP BOSE | 77%

TECHNICAL SKILLS

Programming:
Python, SQL, HTML, CSS

Frameworks & Web:
FastAPI, Django, Streamlit, REST APIs

AI / ML:
Machine Learning, Deep Learning, NLP, Computer Vision, Feature Engineering, Predictive Analytics

Generative AI:
LLMs, RAG, LangChain, LangGraph, Agentic AI, Prompt Engineering, Gemini API, Claude API

Libraries & Tools:
Pandas, NumPy, Scikit-Learn, Plotly, Prophet, ReportLab, Sentence Transformers, Tesseract OCR, pytesseract

Databases:
MongoDB, SQLite, FAISS

Deployment Tools:
Streamlit Cloud, GitHub Actions, Uvicorn, Render

Version Control:
Git, GitHub

PROFESSIONAL SUMMARY

MCA student specializing in AI, Machine Learning, and Generative AI. Completed a 6-month Python Developer Internship at CS Soft Solutions, building and deploying AI-powered applications using Python, FastAPI, LangChain, and LLMs.

EXPERIENCE

Python with AI and ML Intern

CS Soft Solutions (India) Pvt Ltd, Mohali | Jan 2026 – Jun 2026

- Developed and deployed AI/ML applications using Python, FastAPI and Streamlit for NLP tasks like classification and semantic search.
- Built complete RAG pipelines with LangChain and FAISS, integrating Generative AI features using Gemini and Claude APIs.
- Designed Agentic AI workflows with LangGraph and deployed applications on Streamlit Cloud using Git/GitHub.

PROJECTS

1. AI Expense Analyzer — OCR Edition

Stack: Python, Streamlit, Tesseract OCR, SentenceTransformers, Prophet, Plotly, SQLite
[GitHub](#) | [Live Demo](#)

- AI-powered expense analyzer with OCR receipt scanning, AI-based categorization, and spend forecasting.
- Interactive Plotly dashboards with secure multi-user auth, PDF reports, and budget alerts.

2. AI Interview Agent

Stack: Python, FastAPI, LangGraph, Google Gemini, Streamlit, SQLite
[GitHub](#) | [Live Demo](#)

- Automated AI interview system using a stateful LangGraph workflow to manage the full interview lifecycle.
- Gemini AI generates role-specific questions and detailed candidate performance evaluations.

3. RAG-Powered Document Chatbot

Stack: Python, LangChain, Google Gemini, FAISS, Streamlit
[GitHub](#) | [Live Demo](#)

- Complete RAG pipeline for PDF ingestion, chunking, embedding generation, and FAISS-based retrieval.
- Gemini generates context-aware answers with persistent conversation memory for follow-ups.

4. Movie Recommendation System

Stack: Python, Django, REST APIs, Pandas

- Movie recommendation system using Django and REST APIs with content-based filtering.
- Used genre, cast, and keyword attributes on rating datasets to improve recommendation accuracy.

RELEVANT COURSEWORK

Machine Learning, Deep Learning, NLP, Database Management Systems, Computer Networks, Software Engineering, Operating Systems, Artificial Intelligence

SOFT SKILLS

Teamwork, Communication, Problem Solving, Time Management, Adaptability
